Remove Note:

Remove Condition:

Do not remove note or condition. Explain the progress made in removing the note or condition:

O 9. The business unit must routinely provide reliable information to the public on their performance, including student achievement such as assessment results.

Describe how you routinely provide reliable information to the public on your performance, including student achievement such as assessment results and program results.

Each semester the President's Honor List and the Dean's Honor List are published on the USC Lancaster website, and in the local newspaper, *The Lancaster News*. In addition, for those students fortunate enough to make the list of Who's Who Among Students in American Junior Colleges, an announcement is published in both the local newspaper and on USC Lancaster's website. Please refer online at <http://usclancaster.sc.edu/admissions/index.html>.

Information related to progress of the campus and the status of the academic programs is shared with local community leaders when the Dean is invited to speak at various meetings around the area. For example, the Dean has spoken at the local Rotary clubs of Lancaster County on numerous occasions in the past few years. In addition, The Educational Foundation of USC Lancaster meets quarterly, and one of the agenda items is a report from the Dean. He shares the latest news concerning the university with the board members in a direct, concise, and effective manner. For more information concerning the foundation, please refer online at <http://usclanaster.sc.edu/foundation/index.html>.

Student Learning Outcome Assessment Results: Such as what you report in standard #4, accounting assessment, management assessment, critical thinking, communication, etc. How do you make the results public?

The results of the assessments reported in standard # 4 are available online at <http://usclanaster.sc.edu/assessment/index.html>.

Program Results: Such as what you report in standard #4, graduation rates, retention rates, job placement, etc. How do you make the results public?

This type of information is available on our website at <http://usclanaster.sc.edu/planning/AcctReportFY12-13.pdf>.

Standard #1 Leadership

Organization

- a. List any organizational or administrative personnel changes within the business unit since your last report.

Although there have been no personnel changes within the business unit, USC Lancaster did choose the Business Chair, Stan Emanuel, to serve as Interim Dean upon the retirement of Dr. John Catalano on December 31, 2013. Stan remained in the role until USC Lancaster promoted Dr. Walter Collins to the position of permanent Dean as of April 15, 2013. The appointment of Stan Emanuel as Interim Dean was well deserved and only serves to enhance the perception of the USC Lancaster's Business Department.

- b. List all new sites where students can earn an accredited business degree (international campus, off-campus or on campus, on-line) that have been added since your last report.

None

Standard #2 Strategic Planning (this standard not typically addressed in the QA report) This is used as a place holder to allow all the other standards to be addressed in the QA report and keep the numbering system consistent with self-studies and QA reports.

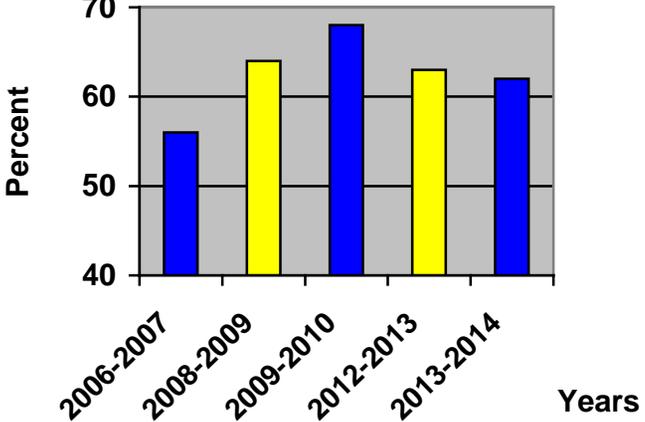

Not Applicable-not addressed in QA Report

Standard #3 Student and Stakeholder Focus

Complete the following table. Provide three or four examples, reporting what you consider to be the most important data. It is not necessary to provide results for every process.

Standard 3 - Student and Stakeholder-Focused Results

Student- and Stakeholder-Focused Results		<p>Student- and stakeholder-focused results examine how well your organization satisfies students and stakeholders key needs and expectations. <i>Performance measures may include: satisfaction and dissatisfaction of current and past students and key stakeholders, perceived value, loyalty, persistence, or other aspects of relationship building.</i></p> <p><i>Measurement instrument or processes may include end of course surveys, alumni surveys, Internship feedback, etc.</i></p> <p>Each academic unit must demonstrate linkages to business practitioners and organizations, which are current and significant, including an advisory board.</p> <p>Periodic surveys should be made of graduates, transfer institutions, and/or employers of graduates to obtain data on the success of business programs in preparing students to compete successfully for entry-level positions.</p>

Standard #4 Measurement and Analysis of Student Learning and Performance

a. Program Outcomes

List outcomes, by accredited program - Program outcomes should be used as part of a student learning assessment plan and be measurable.

Associate in Science in Business

The Associate in Science in Business degree seeks to provide educational opportunities that will prepare students for careers in business and industry as well as meet many of the preliminary requirements for four-year majors in the College of Hospitality, Retail, and Sport Management at USC.

Learning Outcomes

- **Accounting and Financial Skills:** Students completing the Associate of Science in Business degree program at USC Lancaster will be able to perform the basic functions of business financial operations, such as interpreting basic financial statements and reconciling accounts.
- **Knowledge of Basic Legal Concepts:** Students completing the Associate of Science in Business degree program at USC Lancaster will be able to describe basic legal concepts and the judicial system, with emphasis on business law.
- **Management Skills:** Students completing the Associate of Science in Business degree program at USC Lancaster will be able to apply basic management theories to reach appropriate business decisions.
- **Effective Communication:** Students completing the Associate of Science in Business degree program at USC Lancaster will be able to communicate effectively for a business environment.

The associate degree business program is accredited by the Accreditation Council for Business Schools and Programs.

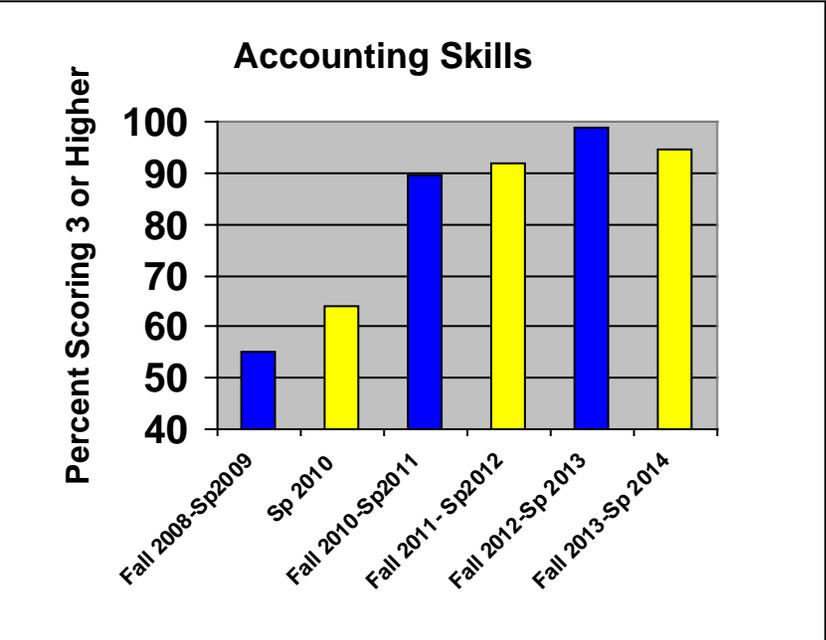

b. Performance Results

Complete the following table. Provide three or four examples, reporting what you consider to be the most important data. It is not necessary to provide results for every process.

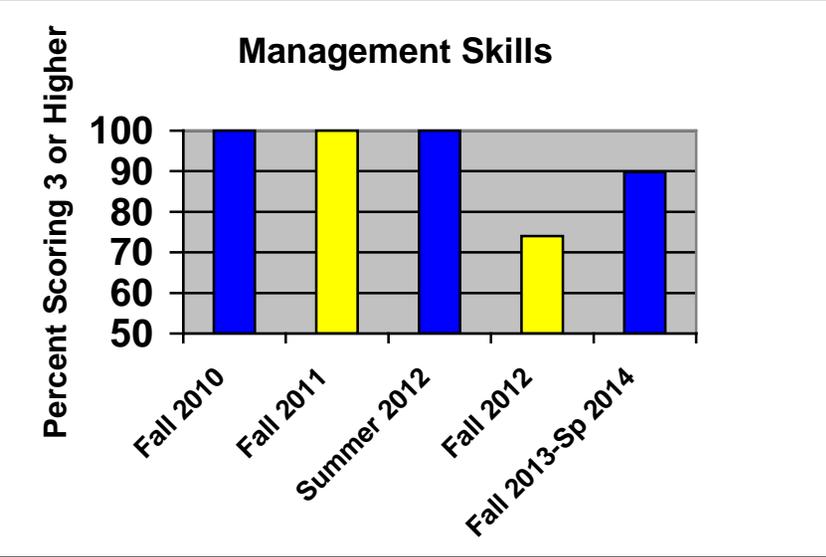

Standard 4 Student Learning Results (Required for each accredited program)

Performance Indicator		Definition			
1. Student Learning Results (Required for each accredited program)		<p>A student learning outcome is one that measures a specific competency attainment. <i>Examples of a direct assessment (evidence) of student learning attainment that might be used include: capstone performance, third-party examination, faculty-designed examination, professional performance, licensure examination).</i></p> <p>Add these to the description of the measurement instrument in column two: Direct - Assessing student performance by examining samples of student work. Indirect - Assessing indicators other than student work such as getting feedback from the student or other persons who may provide relevant information. Formative – An assessment conducted during the student’s education. Summative – An assessment conducted at the end of the student’s education. Internal – An assessment instrument that was developed within the business unit. External – An assessment instrument that was developed outside the business unit. Comparative – Compare results between classes, between online and on ground classes, Between professors, between programs, between campuses, or compare to external results such as results from the U.S. Department of Education Research and Statistics, or results from a vendor providing comparable data.</p>

a. Curriculum

1. List any existing accredited degree programs/curricula that have been **substantially revised** since your last report and attach an updated Table 6 Curriculum Summary from Criterion 6.2 Professional Component, Criterion 6.3 General Education Component, and Criterion 6.4 Business Major Component.

The Business faculty recognized the opportunity to improve and strengthen the Associate in Science in Business program a few years ago. With input from several key people, the faculty added course options that would provide a seamless transfer to the Bachelor of Science in Business Administration or the Bachelor of Arts in Organizational Leadership programs. In addition, faculty agreed that all courses completed in the professional and business major component sections must be passed with a minimum grade of C. This officially takes effect in Fall 2014 for new students. We are very pleased with the improvements made to the program, and we will always strive for continuous improvement.

2. List any **new** degree programs that have been developed since your last report and attach a Table 6 Curriculum Summary from Criterion 6.2 Professional Component, Criterion 6.3 General Education Component, and Criterion 6.4 Business Major Component.

Note: If you have a new degree at a level currently accredited by ACBSP, then report information on: student enrollment, program objectives, instructional resources, facilities and equipment, admissions requirements, graduation statistics, core professional components (CPCs) and the outcomes assessment process to ACBSP.

3. List any accredited programs that have been terminated since your last report.

Note: if you do not have any new or revised programs **you do not need to complete Table 6 Curriculum Summary.**

Table 6.1 Standard 6 - Organizational Performance Results

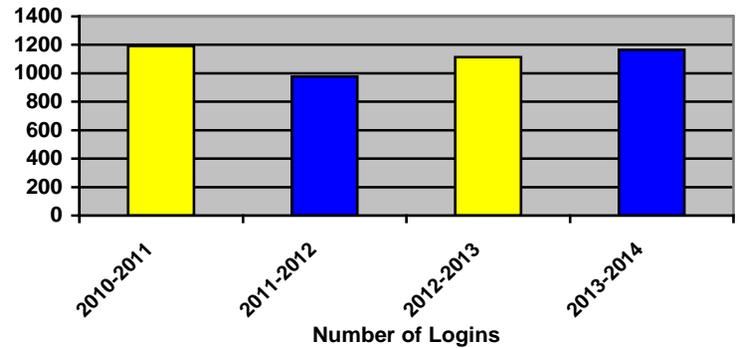

Organizational Effectiveness Results		Organizational effectiveness results examine attainment of organizational goals. Each business unit must have a systematic reporting mechanism for each business program that charts enrollment patterns, student retention, student academic success, and other characteristics reflecting students' performance. <i>Key indicators may include: graduation rates, enrollment, improvement in safety, hiring equity, increased use of web-based technologies, use of facilities by community organizations, contributions to the community, or partnerships, retention rates by program, and what you report to governing boards and administrative units.</i>
